

REMARKS

The Examiner has required restriction under 35 U.S.C. § 121 between six groups. Applicants elect Group I, claims 1 to 13 and 17, for prosecution in connection with the instant application. Claims 1, 3, 4, and 12 have been amended to remove, without prejudice, matter not encompassed within Group I. Claims 18 and 19 have been amended to be more consistent with U.S. patent practice. Applicants reserve the right to prosecute the subject matter of the canceled portions of these claims as well as other claims that do not encompass matter within Group I in one or more divisional applications.

The Examiner has also required an election of a single species. It is Applicants' understanding that this election is being made to aid the Examiner in conducting a search and examination of the claimed subject matter, and is not to be construed as limiting the scope of Applicants' claims. It is also Applicants' understanding that if the elected subject matter is found to be allowable over the prior art, the search and examination will be expanded to cover other species, until it includes the full scope of the generic claims included in the elected group. Applicants hereby elect a species of compound 101 as found in the specification and included below.

Compound 101

Claims 1-5, 7-8, and 11-19 read on the elected species.
